

# Referral Partner Programs

for Carrier Field Technicians

## Clients Count on You to be Connected

Meet the unique needs of your customers while concentrating on your core business.

From time to time the customers you interact with may request advice or a speedy resolution to the following:

*Cross connect during a new installation*

*Run a demarc extension or cable run(s)*

*Move their existing system*

*Upgrade their existing system*

*Finance a new phone system*

DiscountCall is your answer; anywhere in the US!

Our program empowers Carrier Field Technicians to expand their capabilities and earnings potential. Our partners continue to focus on their customer and earn additional revenue by recommending a company they can trust.

Carrier Field Technicians have direct access to DiscountCall Technical Support and a Project Coordinator takes it from there. If the opportunity results in business for DiscountCall, you will receive a referral commission.
